

Single Place Exhaust System

Single place system

The **Single place exhaust extraction systems** from ecovent are the cheapest possibility to remove exhaust gas. The kits includes complete equipment like:

- High performance exhaust fan with motor safety switch
- Wall console, connection piece
- 5m high temperature hose, type TP
- exhaust nozzle with clamping plier (or testing stand)
- Installation kit

We also can offer you a piping, depending on your special requires.

All nozzles correspond to the german specification TRGS 554, so an optimal removal of the exhaust gas is guaranteed.

The car exhaust extraction systems are also available with exhaust fan made from casted aluminium or with 230V motor.

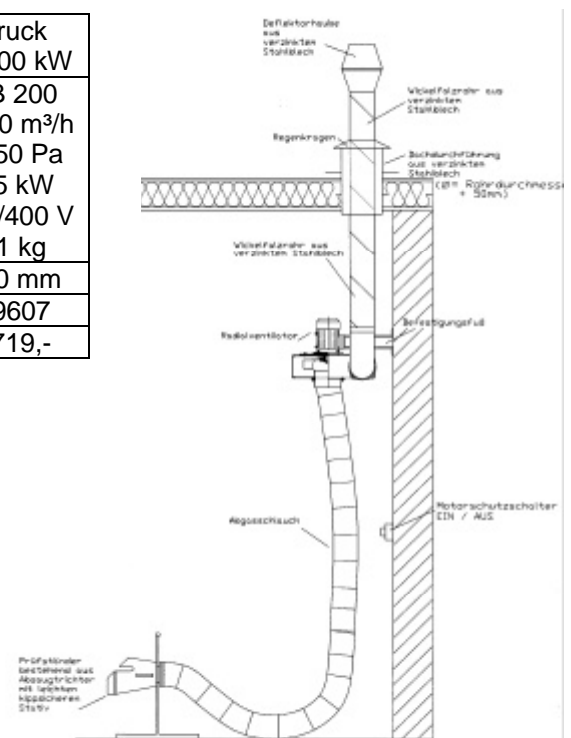

adjustable in height and angle

System for Testing Place:

	Car Benzin	Car B.+Diesel	Truck to 200 kW	Truck to 400 kW
