

## Mobile Filter Unit ecofil

For the flexible exhaust of welding smoke and dust in the workshop we recommend our handy mobile welding smoke filter. Equipped with a 0,75-kW-fan it provides fresh air on the job. The high-quality housing consists of powder-coated steel sheet with 2 steering/brake rolls and connecting cable with protective contact plug.

The advantages in the overview:

- high **performance** fan, 230 V
- max. suction power **1000 m<sup>3</sup>/h** at the funnel
- changeable filter cartridge, **re-usable**
- separation **> 99%** (BIA C)
- pre-filter from aluminum
- suction arm in parallelogram technology, 2 m long
- space-saving cause of small floor space
- 1 year ecovent guarantee
